(54) Title: GYRO SENSOR AND SENSOR APPARATUS USING SAME

(57) Abstract: The primary base plate (1) is provided with a driven mass body (11) to be driven in such a manner as to be vibrated in a direction intersecting with a surface of the support base plate (2), and a detection mass body (12) coupled with the driven mass body (11) through a drive spring (13) and adapted to be displaceable in a plane along the support base plate (2). Two detection springs (15) extending in the arranging direction of the driven mass body (11) and the detection mass body (12) are connected, respectively, to opposite sides of the detection mass body (12), and the other ends of the detection springs (15) are connected together through a coupling segment (16).

NOTIFICATION OF RECEIPT OF RECORD COPY

Date of mailing (day/month/year) 28 April 2005 (28.04.2005)	IMPORTANT NOTIFICATION
Applicant's or agent's file reference 665092	International application No. PCT/JP2005/004870
<p>ATTENTION</p> <p>The applicant should carefully check the data appearing in this Notification. In case of any discrepancy between these data and the indications in the international application, the applicant should immediately inform the International Bureau.</p> <p>In addition, the applicant's attention is drawn to the information contained in the Annex, relating to:</p> <ul style="list-style-type: none">- time limits for entry into the national phase - see updated important information (as of April 2002)- requirements regarding priority documents (if applicable) <p>A copy of this Notification is being sent to the receiving Office and to the International Searching Authority.</p>	

INTERNATIONALSEARCHREPORT

International application No.

PCT/JP2005/004870

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

Claims 1, 3-5, 7, 14 are not new compared to D1: JP2003-194545 A.

Feature in Claim 2 is Shape of the support spring, Claim 6 is Capacitance-adjusting electrode, Claim 8 is Divided stationary driving electrode, Claim 9 is Distance-adjusting electrode, Claim 10 is Stationary driving electrode avoids a maximum amplitude region, Claim 11 is "Said electrode wiring" (not mentioned in preceding claims), Claim 12 is Thickness of driven mass body, Claim 13 is Through-hole in driven mass body, Claim 15 is Specified structure to detect acceleration, Claim 16 is Using a pair of gyro sensors.

There is no special technical feature common to above claims. It is obvious that they are not linked so as to form a single general inventive concept.

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
1-5, 7, 14

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
☐ No protest accompanied the payment of additional search fees.
